
TD1 – Part 3: University Work Techniques

Text (for reading): *(You can replace it with any actual academic passage)*

"Academic success depends on more than intelligence or memory. Effective reading strategies play a key role in helping students manage large volumes of information. Skimming and scanning are two techniques that support quick information retrieval and global understanding. Skimming helps locate the main idea, while scanning is used to find specific facts or figures. Mastering these techniques improves reading speed, comprehension, and overall efficiency in study routines."

? Questions:

◆ Part A – Skimming

1. What is the main idea of the paragraph?

◆ Part B – Scanning

2. Find and write down:
 - a) One technique used to locate the **main idea**
 - b) One technique used to find **specific facts**

◆ Part C – Vocabulary

3. Find a synonym in the text for:
 - a) "Quick"
 - b) "Understand"

◆ Part D – Summarizing

4. Write a **2-3 sentence summary** of the paragraph in your own words. Focus only on the essential information.
